

Tim Seitz

Curriculum vitae

* 17 March 1995
✉ tim.seitz@uni-konstanz.de
>ID 0000-0001-6185-3195

Education

- 09/2011 - 06/2014 **General qualification for university entrance (Abitur)**, Gewerbliche Schulen Waldshut-Tiengen, Technisches Gymnasium, Major subject: Technology.
Final grade: 1,6
- 09/2015 - 03/2019 **B.Sc. in Mathematics**, University of Konstanz.
Thesis title: Spektralsatz für Familien kommutierender Operatoren
Advisor: Prof. Dr. Robert Denk
Final grade: Very good with distinction
- 03/2019 - 11/2021 **M.Sc. in Mathematics**, University of Konstanz.
Thesis title: Stochastische Evolutionsgleichungen höherer Ordnung mit Randrauschen
Advisor: Prof. Dr. Robert Denk
Final grade: Very good with distinction
- 01/2022 - today **PhD Candidate**, University of Konstanz
Working title: Stochastic boundary equation with rough path techniques and long-time behaviour
Advisor: Jun.-Prof. Dr. Alexandra Blessing (Neamțu)

Berufserfahrung

- 09/2014 - 07/2015 **Voluntary social year**, in the children day care centre „Bunte Arche“ at the Anton-Leo-Grundschule, Bad Säckingen, Germany.
- 09/2017 - 02/2022 **Student assistant**, University of Konstanz.
Tutor for the following courses in the maths degree programme
Analysis I-III, Fourieranalysis, Theory of partial differential equations
- 01/2022 - heute **Research assistant**, University of Konstanz.
Active in the working group of Jun.-Prof. Dr. Alexandra Blessing (Neamțu). Teaching activities in the form of supervision and organisation of the following courses
Markovchains, Probability theory, Stochastic processes, Stochastic partial differential equations

Talks and Conferences

- 07/2022 **Open Japanese-German Conference on Stochastic Analysis and Applications**, University of Münster.
Poster Session: *Stochastic evolution equations with rough boundary noise*
- 01/2023 **Seminar in the research unit for „Rough paths, stochastic partial differential equations and related topics“**, TU Berlin.
Online talk: *Stochastic evolution equations with rough boundary noise*
- 03/2023 **16th German Probability and Statistics Days**, University of Duisburg-Essen.
Talk: *Stochastic evolution equations with rough boundary noise*
- 07/2023 **The SPDEvent 2023**, University of Bielefeld.
Talk: *Stochastic evolution equations with rough boundary noise*

Further knowledge

Language skills

- German Native language
English Good written and spoken skills

Software

- Safe handling LaTeX, Office programs
Basic knowledge Python, Matlab, Java, R

Publications
